Computer-Assisted Coding & CDI Solutions**

Speech Recognition Pathology Solutions

Dolbey is enhancing the way pathology professionals create clinical documentation. Organizations using Fusion Narrate have improved their medical collaboration and patient care.

The Fusion Suite™

DOLBEY
— SINCE 1914 —

Fusion Narrate for Pathology

Dolbey named Best in KLAS or KLAS Category Leader for Speech Recognition Categories in 2012, 2013, 2014, 2015/2016, 2018 & 2019

Dolbey, a world leader in clinical documentation solutions, delivers a comprehensive, speech-enabled reporting solution for pathology. Dolbey's Fusion Narrate® powered by nVoq™ is a cloud-based solution that uses a pathology-specific vocabulary to maximize speech recognition accuracy.

Fusion Narrate provides flexible options for every pathology professional. Users can choose between front-end or back-end speech recognition and traditional dictation/transcription workflows.

Fusion Narrate is designed to integrate with all major LIS and Digital Pathology systems without the need for interfaces. The shortcut builder tool makes it easy to configure a repeatable sequence of steps or create and fill templates, which assists in the completion of synoptic reporting and LIS navigation.

Fusion Narrate also has over 100 built-in voice commands, including easy cassette labelling, text formatting, and navigation commands to make data entry effortless.

Fusion Narrate reduces transcription costs and makes documentation easier, which leads to faster report turnaround times.

Fusion Narrate Features

Supports interactive templates

Lightweight interface design allows for a more economical and flexible deployment

Front-end and back-end speech recognition along with standard dictation options

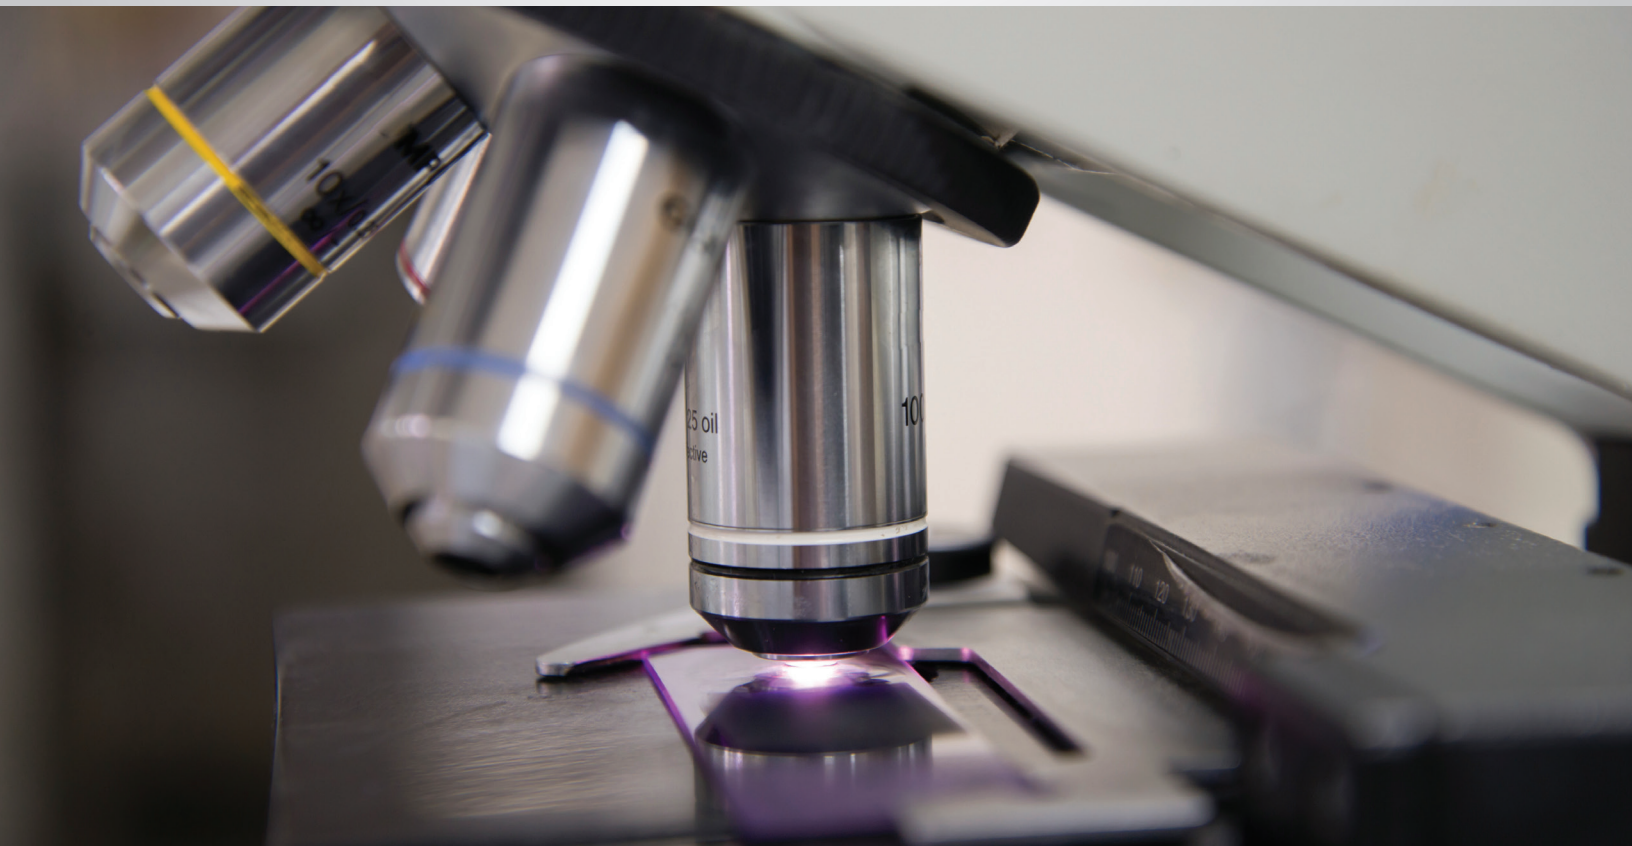

Wireless microphone for iOS and Android

Pathology-specific vocabulary, microphone configuration, and the ability to work hands-free

24/7 support - We're here for you 365 days a year

Since 1914, Dolbey has provided voice recording and document management solutions designed to help healthcare organizations improve workflow, boost productivity and increase profitability.

The Fusion Suite platform is Dolbey's line of award-winning software products that includes dictation, transcription, speech recognition, clinical documentation improvement and computer-assisted coding technologies. Together they deliver an end-to-end solution that creates more accurate reporting for critical data elements and improves documentation, reimbursement and patient care.

How can we help you?
